It's time to register your interest in attending the 4th annual
Hatter Cardiovascular Institute Horizon Meeting:

A new era in the management of type 2 diabetes & cardiovascular disease

A host of internationally renowned researchers will preview their recent discoveries in diabetes management
and discuss their expectations for the future.

**Guidelines for cardiovascular risk prevention in diabetes:
are they in line with current evidence?**

Professor Steven Nissen
The Cleveland Clinic, Ohio, USA

The biology and therapeutic importance of GLP-1 - another year on!

Professor Dan Drucker
University of Toronto, Canada

**The therapeutic importance of SGLT2 inhibition -
heart failure the new target!**

Professor Nikolaus Marx
University of Aachen, Germany

Renoprotective effects of SGLT2 inhibitors

Professor Christoph Wanner
University of Würzburg, Germany

Neuroprotective effects of GLP-1 analogues - is it time to act?

Professor Hertzell Gerstein
McMaster University, Canada

**Hypertension, diabetes, and target organs -
unravelling the causal chain**

Professor Morris Brown
Queen Mary University of London, UK

Obesity - has new therapy changed our thinking and practice?

Professor Rachel Batterham
University College London, UK

**PCSK9 inhibition -
have we reached the limits of lipid lowering and outcome?**

Professor Kausik Ray
Imperial College London, UK
