

THE LANCET

Cardiology, Diabetes & Nephrology at the Limits

University of Campinas, Brazil

Thursday 21st & Friday 22nd October, 2021

Chairpersons:

Derek Yellon, Andrei Sposito, John Cunningham, Stephanie Baldeweg, Otavio Coelho,
Peter Libby, Marc Pfeffer, Brian Rayner, Mpiko Ntekhe, Richard Horton

1. PolyPill or Precision Medicine - is there room for both?

Professor Borja Ibanez
CNIC, Madrid, Spain

2. New strategies to mitigate the residual vascular risk in diabetes.

Professor Alberto Lorenzatti
Fundación Rusculleda, Córdoba, Argentina

3. Heart failure at the limits - have we achieved appropriate therapy at last!

Professor Marco Metra
University of Brescia, Italy

4. Cardiac Amyloidosis: Evolving Diagnosis and Management.

Professor Perry Elliot
University College London, UK

5. Can we prevent today's cancer patient from being tomorrow's heart failure patient?

Professor Malcolm Walker
University College London, UK

6. Management of anemia in chronic kidney disease: time to challenge the limits?

Professor Roberto Pecoits
Ann Arbor, Michigan, USA

7. HIV as a cardiovascular risk factor.

Professor Mpiko Ntsekhe,
University of Cape Town, South Africa

8. The role of autoimmune renal disease and its treatment in cardiovascular disease.

Professor Alan Salama
Centre for Nephrology, UCL, London

9. Can we conciliate the gluco-centric, adipocentric and cardiocentric views with modern approaches to type 2 diabetes?"

Professor Bruno Geloneze

University of Campinas, Brazil

10. Three decades of changes in the burden of cardiovascular disease in Latin America.

Professor Paulo Lotufo

University of São Paulo, Brazil

11. COVID-19 and the heart - what have we learnt!

Professor Otavio Berwanger

The Heart Hospital, Sao Paulo, Brazil
